

OUT OF SIGHT OUT OF MIND JUST RELAX!

The Flip'n'Fill stays hidden from view as it fills your pool for you... what more could you ask for?

- ✔ Suitable for new & existing pools
- ✔ Compatible with most skimmers
- ✔ Adjust water level with ease
- ✔ Protects pool pump & equipment
- ✔ Simple installation

SIMPLE, AFFORDABLE, RELIABLE

Choose from four stylish colours to suit the deck area around your pool.

The Flip'n'Fill is a skimmer lid and automatic water leveller in one. It's a simple solution to the main frustration of pool owners – filling your pool without accidentally flooding the backyard!

Choose one of two operating models – a permanent supply line that is hidden from view, or a hose fitting that connects in seconds. Both shut off the moment the correct water height is reached.

Three adaptor rings are included to ensure the lid fits neatly on top of most skimmer boxes. Just replace your existing skimmer lid, adjust the level height to suit, and connect your water source.

You can enjoy your pool and relax with confidence knowing the Flip'n'Fill has got you covered.
