

*Shower head and fixtures (pictured) not included.*

**GENERAL INFO**

**SHOWER FILTER SYSTEM**

Enjoy better feeling hair and skin with a shower filter.

The Puretec SF240-CH double-life shower filter system uses carbon and KDF media to reduce sediment, chemicals and heavy metals in your shower water. Showering with filtered water removes contaminants that can be aggressive or damaging to your hair and skin. Filtered water preserves the natural oils in your hair making it feel healthier and smoother. The Puretec SF240-CH also removes chlorine meaning dyed hair will shine longer and colours will be more vivid, it also helps to prevent dry, itchy skin caused by chlorine and other contaminants.

As no re-plumbing is required you won't need a professional to install the system, simply screw it onto your existing shower head and instantly enjoy the benefits of a shower with filtered water!

**FEATURES & BENEFITS**

- Prevents dry itchy skin.
- Hair feels healthier and smoother.
- Dyed hair will shine longer & colours are more vivid.
- Compact but powerful filtration performance.
- Stylish, durable chrome plated housing.
- Quick and easy DIY installation.
- High capacity filter lasts approx 6-12 months, dependent on usage and water quality.
- Reduces Chlorine.
- Reduces iron oxide (rust).
- Removes dirt and sediment.
- Reduces heavy metals like lead, mercury, magnesium and chromium.
- Removes hydrogen sulfide (rotten egg odour).

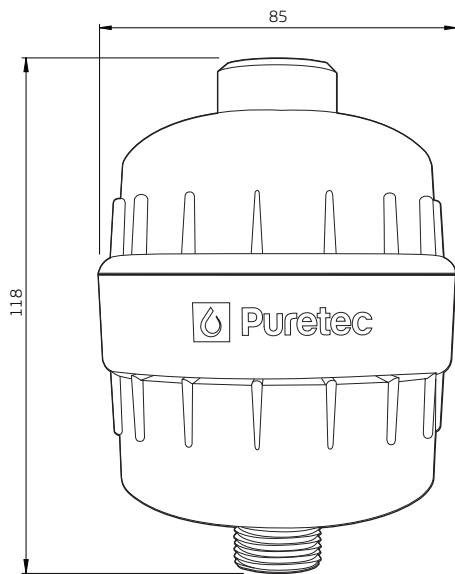

**SPECIFICATIONS**

Model Number:	SF240-CH
Replacement Cartridge:	SF24-2
Min/Max Temperature:	2 - 50°C (protect from freezing)
Min/Max Pressure:	138 - 550 kPa
Connection:	½" BSP [15 mm]

*Important Note: Use only genuine Puretec replacement cartridge.*

**PRODUCT DIMENSIONS** (measurements shown in millimetres)

**FILTRATION TECHNOLOGY**

Carbon is highly effective at eliminating odours and chemicals and works through the process of adsorption.

KDF (Kinetic Degradation Fluxion) media is made up of high-purity copper-zinc granules that reduce contaminants in water using an oxidation/reduction (redox) reaction.

Together the Carbon and KDF media reduces sediment, chlorine, iron lead, mercury, calcium carbonate, magnesium and chromium in your shower water.

**DIRECTIONS**

1. Remove existing shower head from shower arm.
2. Thread the shower filter onto the shower arm.
3. Thread shower head onto the shower filter.
4. Flush after installation for 5 minutes.

**Note:** For best results change cartridge every 6 months.
